

## Service certificate (Appendix D)

1. Should a breeder make use of a Boerboel male (or his semen) that does not belong to the breeder, this Service Certificate must be completed. Where frozen semen is used the veterinarian involved must sign and certify the document.
2. This Certificate must be given to the owner of the Boerboel bitch once the service/insemination has taken place.
3. The owner of the Boerboel bitch must forward this Service Certificate, together with the Birth Notifications to the office.
4. In order to prevent misunderstandings from occurring it is recommended that *Special Arrangements* (if any) be signed by both parties at the outset.

### Boerboel male

Name		ID. No.	
Appraisal point achieved			
Dates of services / inseminations	1)	2)	3)
Name of owner			
Address of owner			
Telephone No.		Member No.	
Signature of owner of Boerboel male			

### Boerboel bitch

Name		ID. No.	
Appraisal point achieved			
Name of owner			
Address of owner			
Telephone No.		Member No.	
Special arrangements			

**I, the abovementioned owner of the Boerboel bitch, named in this document, hereby declare that I can institute no claims against the owner of the Boerboel male in the event that my Boerboel bitch suffers injury, illness or death. I also understand the terms of the Special arrangements (if such are applicable).**

Signature of owner of Boerboel bitch
