

SABBA transactions now online

Source: Web Editor
Date: 21 February 2008

Most of the documentation that members need to initiate transactions with SABBA is now available on the web site.

The Executive Committee decided to introduce this service as part of their strategy to significantly improve and facilitate communication between members and the Association.

The following transactions can be done online for direct processing by the SABBA office:

- Birth notifications (Notice of litter).
- Membership renewals.
- Membership applications.

The other forms that are not linked yet can be printed, completed by hand and submitted by fax or email (if you have a scanner). No doubt, this will cut out many phone calls and fax messages between you and the Office. These forms are:

- Order form for all services.
- Studads subscription form.
- Mini-ads subscription form (new section to advertise puppies for sale).
- Vaginal hyperplasia examination report (print for completion by veterinarian).

Please note that SABBA will not process any transaction without proof of payment. All the rates appear on the 'Order form'.

Click on [Download](#) to access the respective forms.

The best news is that this is the short-term plan only. The Web Editor and our IT Developer will submit proposals and quotations for a complete redesign to make the web site more user-friendly and functional. The cost of such a site is significant, and SABBA will explore all possible sources of additional revenue to make the web site self-sufficient. Suggestions from members are most welcome!
